ASPIRE™ speaks for an entire industry...

...the CONCRETE BRIDGE industry.

An established, highly rated quarterly magazine, ASPIRE is a joint effort by associations that represent all concrete bridge technologies and disciplines.

Since 2007, ASPIRE has been produced by the Precast/Prestressed Concrete Institute (PCI) in cooperation with the associations of the National Concrete Bridge Council and other associations. These associations have included the American Segmental Bridge Institute (ASBI), American Shotcrete Association (ASA), Epoxy Interest Group (EIG), Expanded Shale Clay and Slate Institute (ESCSI), Portland Cement Association (PCA), Post-Tensioning Institute (PTI), and Silica Fume Association (SFA).

ASPIRE promotes the benefits of concrete bridge systems and materials
Concrete is clearly the backbone of the nation’s transportation infrastructure and the material of choice for bridge designers and owner agencies. ASPIRE magazine is designed to not only protect, but expand this market share.

Editorial pages document the benefits and advantages of all types of concrete bridge technologies—precast, prestressed concrete, cast-in-place concrete, and segmental construction—covering concrete bridge durability, longevity, safety, sustainability, and potential for accelerated bridge construction.

Each issue features a profile of a significant bridge engineer; information on trends and case histories; and departments providing news from the FHWA, state DOTs, and county and city officials—plus updates on the activities and programs of the industry.

ASPIRE talks to those who make the decisions...

...those WHO DESIGN and SPECIFY.

Reaching some 22,000 of America’s most influential bridge design professionals and owner agencies, the ASPIRE message targets key individuals and principal stakeholders in the bridge design and construction community.

This unique magazine documents how owner agencies, department of transportation professionals, and consulting engineers can use and are using concrete to solve increasingly unique design challenges.
Reach the people you need to reach—every one a decision maker in the bridge design community.

ASPIRE’s high-quality, hand-selected circulation of key decision makers provides a prime audience for both concrete materials and equipment suppliers and bridge designers. The list includes:

FHWA and federal agencies; state DOTs (administrators; bridge designers; district engineers; and materials, construction, and maintenance engineers); city and municipal engineers and executives; municipal planning organizations; county administrators and engineers; railroads; toll, turnpike, and bridge authorities; contractors; bridge design consultants; and colleges and universities.

Gain name recognition and product or service familiarity from this important readership.

Showcase your products and capabilities in an exciting, high-quality, high-readership publication targeted directly to your potential clients.

ASPIRE is a magazine that readers read... and keep! A quality publication that you will be proud to advertise in.

Associate your product or service in a proactive environment of practical and innovative concrete solutions to today’s bridge needs and concerns.

ASPIRE features inspirational and practical information in a four-color, high-impact format that showcases how YOUR bridge systems and expertise can extend design boundaries; span environmental-impact, aesthetic, and safety concerns; and produce high-performance, long-lasting, and low-maintenance bridges.

Grow YOUR market share!

Concrete now accounts for nearly 75 percent of new and replacement bridges (based on FHWA figures). ASPIRE magazine helps our industry protect AND GROW this market share. That means more business for YOU.

For manufacturers and suppliers...

ASPIRE allows you to position your technology, materials, and equipment as available, effective, and state-of-the-art answers to the nation’s bridge builders and owners.

For bridge design consultants...

ASPIRE allows you to document your design capabilities and expertise to both potential customers and potential employees in an environment of excitement and innovation in bridge design.

For more information on how to participate in this exciting magazine, contact Jim Oestmann at (847) 838-0500.

CONTINUED FOCUS ON RESILIENCY, PRESERVATION

Concrete can be an extremely durable and resilient material. Designers have wide flexibility to augment and increase this performance. In 2014, ASPIRE will continue to keep pace with the market place by focusing on resiliency and preservation. In addition, the benefits of accelerated bridge construction (ABC) will continue to be highlighted.

FEATURED IN EVERY ISSUE:
- LRFD Briefing (by noted author Professor Dr. Dennis Mertz)
- FHWA Update • Featured Consultant
- Aesthetic Commentary (by noted architect/engineer Frederick Gottemoeller)
- State Article • City/County Article
- Safety and Serviceability Feature
- Concrete Connections • Concrete Ideas Feature

NEW! Winter and Summer Issues. A special section devoted to Concrete Bridge Preservation. These articles will feature a mixture of successful project reports and techniques, providing good technology transfer to practitioners. The special section will provide the opportunity to introduce the use of modern methods and new materials to extend the lives of our nation’s concrete bridges.

FURNISHED INSERTS: Available on a custom quote basis.

Simulation of Publication Format — The publisher reserves the right to reject any advertisement and to designate as advertising any advertisement resembling editorial matter.

Publisher’s Protective Clause — Advertisers and their agencies assume liability for all content (including text, representation, and illustrations) of advertisement printed, and assume responsibility for any claims arising therefrom made against the publisher.

Rate Protection — The publisher may revise rates on 90 days’ notice. Advertisers may cancel their orders at the time the change in rates becomes effective without incurring a short rate adjustment, provided the rate has been earned up to the date of cancellation.

Publisher Error — The publisher’s liability for any error will not exceed the cost of printing for the page(s) in question.
ASPIRE™ is a computer-to-plate publication. **Digital ad files are REQUIRED.**

**FINAL TRIM SIZE**
8 1/8 x 10 7/8 inches.
All pertinent matter should be kept 1/2 inch from trim on all four sides. (Ads must be created at 100%)

**SPREAD ADS**
16 1/4 x 10 7/8 inches. All pertinent matter should be kept 1/4 inch from the gutter on both sides (1/4 inch total). **Spread ads MUST be on two pages, not one.**

**LINE SCREEN**
150 line = 300 dpi at 100%

**FTP SITE**
ASPIRE magazine offers an FTP site. You can quickly send your electronic files for articles and advertisements. Contact: pgrigonis@pci.org.

**MEDIA DELIVERY**
Paul Grigonis
Precast/Prestressed Concrete Institute
200 West Adams St., Suite 2100
Chicago, IL 60606
Tel: (312) 786-0300
Fax: (312) 621-1114

---

**ELECTRONIC FILE PREPARATION**

**PDF files**
Acrobat 4 (PDF 1.3) files are accepted. PDF files must be created using InDesign 2 (or later) or Acrobat Distiller 4 (or later). Do not use Quark 6 export PDF setting. All PDFs must have crop marks with 1/8 inch bleed, and be high-resolution with all fonts and graphics embedded.

**Page files**
All page files must be provided in Mac format, Adobe InDesign 2 (or later) or QuarkXPress 4–7 files, including all fonts (screen and printer) and all high-resolution (300 dpi) graphic files.

**Graphic files**
All illustrations, logos, etc., must be provided in Illustrator, Freehand, or Photoshop.

**Photo images**
All high-resolution files must be supplied (100% size at 300 dpi). Files must be C.M.Y.K., EPS files (NO DCS FILES).

**Fonts**
All screen and printer fonts must be included. Also include all fonts used in any Illustrator or Freehand files, if applicable.

**Proofs**
A four-color matchprint-quality proof must be supplied with all media for display ads. If only a laser print is supplied, a color matchprint will be pulled and the advertiser will be billed an additional $90.

**Media**
Macintosh files must be supplied on a CD, on a DVD, or electronically via FTP. Contact Paul Grigonis at PCI, (312) 360-3217, for complete details.

**Return of Media**
Materials will be retained by the publisher for one year unless otherwise requested. The publisher is not responsible for keeping material beyond one year and will discard if return is not requested.

**NOTE:** We preflight all ads to find problems such as missing fonts, low-resolution photos, or color problems. We are not responsible for improperly prepared files. We will attempt to notify agency/advertiser if we find a problem with your native files or PDFs. **PDF files cannot be altered once we receive them,** so any changes necessary will need to be submitted as a new file. The publisher is not responsible for improperly submitted files, but will request that they be resubmitted. If you have any questions please call Paul Grigonis at (312) 360-3217 or email him at pgrigonis@pci.org.
