

## READER RESPONSE

*I'd like to obtain three copies of your Fall 2007 issue as it contains an article about our Segmental Guideway for the Light Rail in Seattle.*

Rachel Quesinberry  
PCL  
Bellevue, Wash.

*I would like to get more information about an article in the Fall 2007 issue "Short Span Spliced Girders Replicate Historic Design." I am looking for a copy of the contract plans.*

Luong Tran  
Olympia, Wash.  
[Ed. Note: References were gladly provided.]

*What I like about ASPIRE™ is that it features all types of bridges.*

Kevin Nelson  
City of Saint Paul Public Works  
Saint Paul, Minn.

*I do get [ASPIRE] magazine along with a number of our other engineers. It is one of the few that actually gets read and discussed within our structures group.*

Jim Deschenes  
Michael Baker Jr. Corp.  
Salt Lake City, Utah

*VHB has made a few presentations and award applications for the bridge (Lime Kiln) but having an article in ASPIRE will be a definite highlight for the project and, I think, of interest to your readers.*

Chris Baker  
VHB-Vanasse Hangen Brustlin Inc.  
Bedford, N.H.

*I just wanted to let you know that ASPIRE magazine has aspired, pardon the pun, to more than my expectations. It is really looking good.*

Larbi Sennour, PhD, PE  
Executive Vice President  
The Consulting Engineers Group Inc.  
San Antonio, Texas

*Congratulations on your ASPIRE Magazine. It is absolutely excellent. The Concrete Bridge Industry has needed this for some time.*

Ed Rice  
CTS Cement

## BRIDGE POST-TENSIONING SYSTEMS: Innovative, Proven and Durable.

### SYSTEMS

- BONDED MULTISTRAND
- VSLAB+® BONDED SLABS
- STAY CABLES
- VIBRATION DAMPING

### SERVICES

- SYSTEM INSTALLATION
- DESIGN SUPPORT
- HEAVY LIFTING
- REPAIR & STRENGTHENING
- EQUIPMENT RENTAL

Owners and design teams rely on VSL to provide innovative technology and proven systems to maximize the durability of transportation structures. A world leader in post-tensioning, VSL has evolved into a multi-disciplined bridge partner capable of providing contractors and engineers with design support, as well as construction systems and services for precast segmental, cast-in-place and stay cable bridges.

# LET LARSA 4D TAKE YOUR PROJECTS INTO THE NEXT DIMENSION

LARSA 4D structural analysis and design software specializes in cable-stayed, suspension, and segmental bridges.

FIGG turns to LARSA 4D for nonlinear analysis, time-dependent material effects, and integrated modeling of construction activity.

LARSA software is the company standard at FIGG, HDR, International Bridge Technologies, Parsons Brinckerhoff and many other leading engineering design companies.

Veterans' Glass City Skyway, Toledo, Ohio — FIGG

## LARSA 4D.com

### BRIDGES

- Segmental
- Composite
- Cable-Stayed & Suspension
- Post-Tensioned
- Steel Plate Girders

### ANALYSIS

- Geometric Nonlinearity
- Material Nonlinearity
- Finite Element Library
- Progressive Collapse
- Nonlinear Dynamics
- Plastic Pushover

### DESIGN

- 3D Tendons
- Influence Surfaces
- Creep & Shrinkage
- Relaxation
- AASHTO LRFD** 2006 Code Check

### CONSTRUCTION

- Time-Dependent Materials
- Staged Construction
- Incremental Launching
- Balanced Cantilever
- Span-by-Span

Susquehanna River Bridge, I-76, Pennsylvania — FIGG
